
(a) Predictive lane blocking
exit not predicted:
left open
pre-positioned at the
next predicted junction
P3
predicted path
E
P1
P2
J_1
J_2
pursuers that cannot reach
a lane in time chase; plans
are recomputed every second
every lane of the predicted exit
is held, 21.8 m into the lane
(b) Operational capture (OC)
gap 0.3–2.0 m
E
P
for at least 2 s, with one pursuer:
• both speeds $\leq$ 1 m/s, $|\Delta v| \leq$ 1 m/s
• headings within 15°
• evader behind, lateral offset $\leq$ 1 m
hold audit (scripted evader): 0 of 1 433
move $>$10 m in 60 s; active probe: 15 escape
